SEMI-AUTONOMOUS PENTESTING

ATTACKERS ARE ARMING THEMSELVES WITH AI, AND THE TIME TO EXPLOIT IS SHRINKING FROM WEEKS TO HOURS. YOUR DEFENCE HAS TO KEEP PACE.

ATTILA IS AN AI-POWERED SERVICE FOR PENTESTING AND RED TEAMING THAT CONTINUOUSLY TESTS AND EXPLOITS YOUR ATTACK SURFACE AND REVEALS THE VULNERABILITIES THAT ACTUALLY MATTER.

Find & break attack paths
ATTILA identifies and validates attack paths so they can be broken early.

Continuity instead of a snapshot
Our team supports you continuously and responds on demand.

Pentesters steer, ATTILA accelerates
Senior pentesters steer every ATTILA engagement and validate every finding.

DEVELOPED AND HOSTED IN GERMANY | EU AI ACT CONFORM

FIVE PROBLEMS
ONE SOLUTION

COMPETENT 01

Vulnerabilities keep growing.

—

ATTILA makes it manageable.

EFFICIENT 02

Where pentests keep delivering the **same results**.

—

ATTILA identifies new attack vectors.

CONSTANT 03

Instead of providing a **snapshot** in time.

—

ATTILA tests continuously and on demand.

FAST 04

Time-to-exploit is shrinking considerably.

—

ATTILA tests at machine speed.

UP2DATE 05

Attackers are constantly **evolving**.

—

ATTILA ensures continuous parity.

THE ATTILA ADVANTAGE

ATTILA WATCHDOG + PENTESTING TEAM

Made & hosted in Germany

LASTING SECURITY

Your attack surface is tested continuously. Security becomes a permanent state.

DEEPER RESULTS

Real attack paths instead of reduced checklists. More substance in every test.

PREDICTABLE COSTS

We offer a continuous managed service instead of expensive one-off projects.

PART OF YOUR TEAM

An Advanced Persistent Threat (APT) that stands by your side and integrates into your processes.

THE DIFFERENCE

PERIODIC PENTESTING AND SEMI-AUTONOMOUS PENTESTING COMPARED SIDE BY SIDE.

TRADITIONAL PERIODIC PENTESTING

- ✕ A snapshot in time
- ✕ Limited by person-days
- ✕ Gaps between tests go unnoticed
- ✕ Reports take time

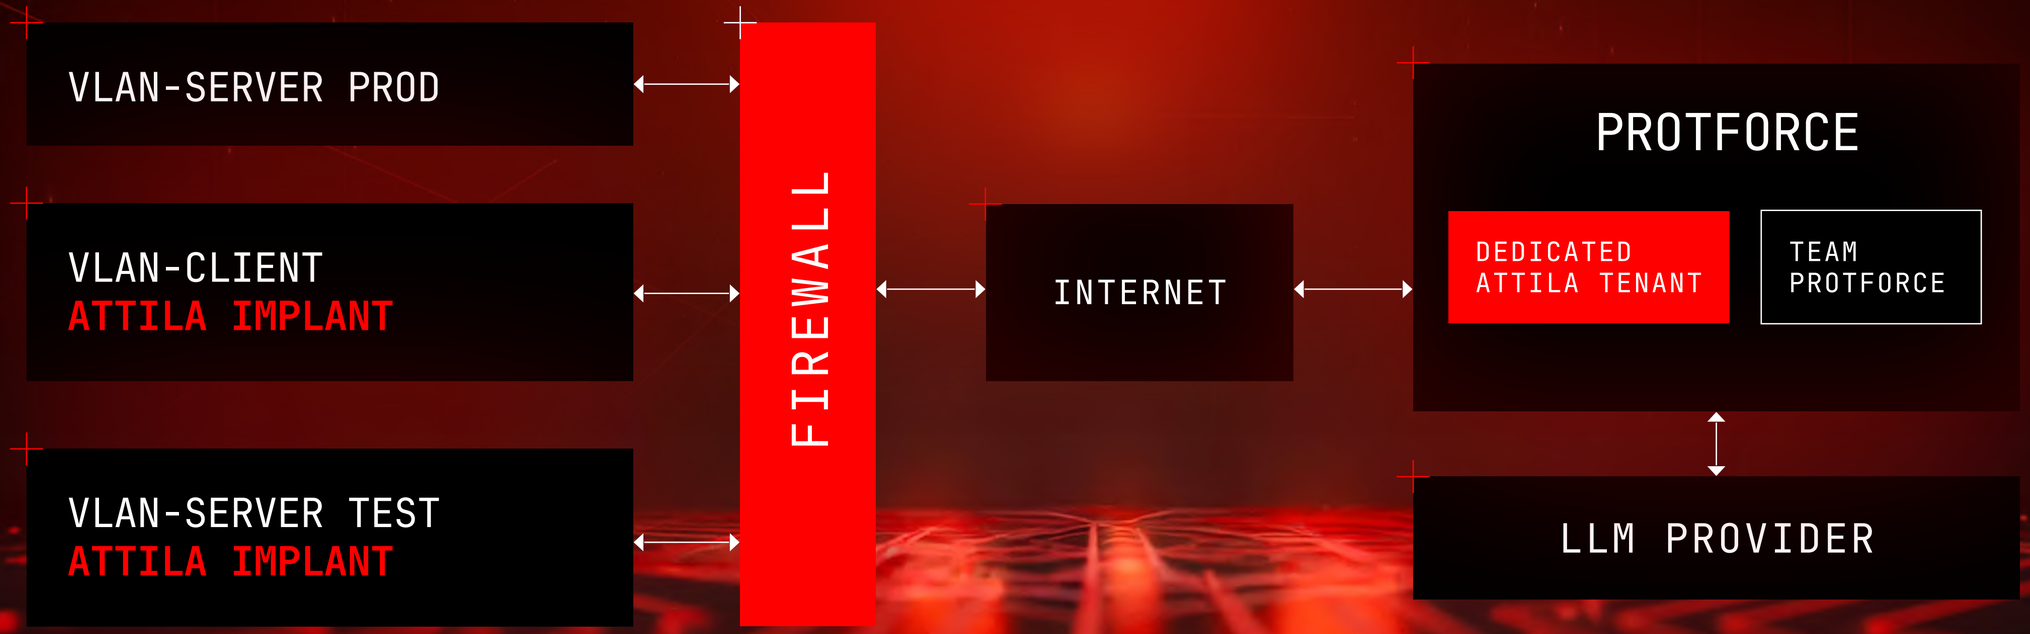

ATTILA CONTINUOUS PENTESTING

- ✓ Permanent coverage of the attack surface
- ✓ Parallel test series, one team
- ✓ New gaps are reproduced immediately
- ✓ Evidence and reports at the push of a button

THE ATTILA ARCHITECTURE

LIGHTWEIGHT ATTILA IMPLANTS RUN INSIDE YOUR NETWORK SEGMENTS AND CONNECT OUTBOUND ONLY TO YOUR DEDICATED ATTILA TENANT. NO INBOUND FIREWALL RULES REQUIRED.

EACH TENANT IS ISOLATED PER CUSTOMER. OUR PENTESTERS STEER AND VALIDATE EVERY ACTION, AND THE LLM ONLY RECEIVES THE DATA A TASK REQUIRES.

ATTILA CHAINS INDIVIDUAL FINDINGS INTO REAL ATTACK PATHS
AND UNCOVERS WHAT TRADITIONAL PENETRATION TESTS MAY MISS.

TRADITIONAL VULNERABILITY MANAGEMENT

10 DOCKER IMAGES ARE ACCESSIBLE!

BI DASHBOARD

ACCESS THE BI DASHBOARD.

FIND-009

HARDCODED PASSWORD FOR BI DASHBOARD DOCKER.

FIND-010

POTENTIAL SQL INJECTION IN THE BI DASHBOARD DOCKER.

SQL INJECTION

ACTIVELY TEST & VALIDATE THE VULNERABILITY.

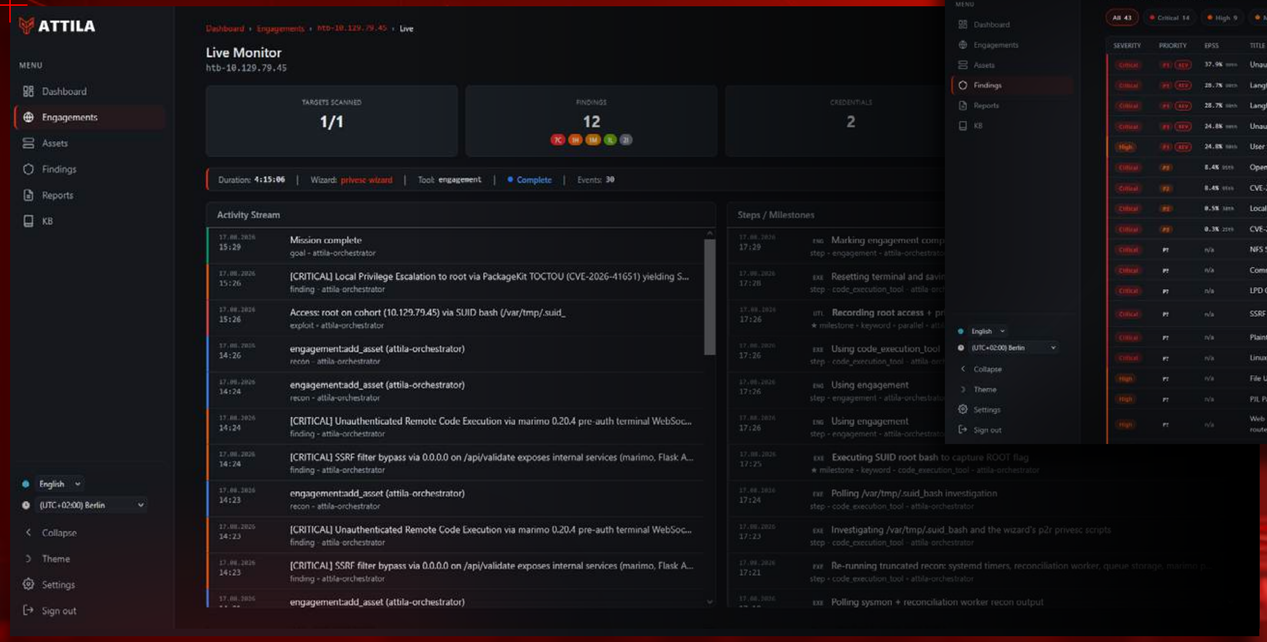

ACCESS THE DATABASE

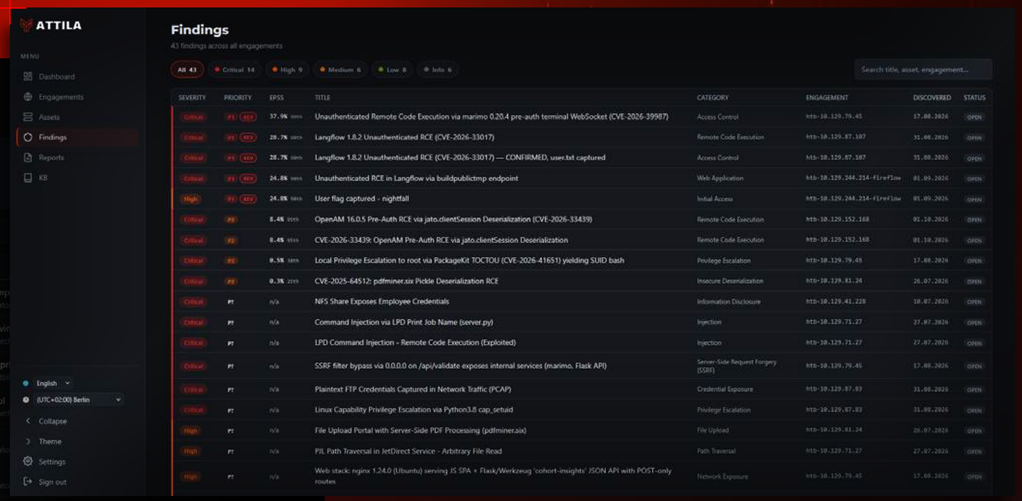

PRODUCTION ERP DATABASE ACCESSED!

THE ATTILA DASHBOARD

ONE VIEW OF YOUR SECURITY POSTURE: WHAT ATTILA TESTED, WHAT IT FOUND AND WHICH ATTACK PATHS ARE STILL OPEN.

YOUR TEAM FOLLOWS EVERY FINDING IN REAL TIME, FROM FIRST DETECTION TO VERIFIED FIX.

LIVE MONITORING DASHBOARD

- ✓ All validated findings and attack paths at a glance
- ✓ Prioritised by real exploitability, not CVSS alone
- ✓ Retest status for every remediated finding
- ✓ Audit-ready reports at the push of a button

FULL OFFENSIVE SPECTRUM

PENTESTING

- ✓ External pentests
- ✓ Internal pentests
- ✓ Web application pentests
- ✓ Cloud pentests
- ✓ Source code reviews
- ✓ Red teaming

VALIDATION

- ✓ Vulnerability severity validation
- ✓ SIEM use cases
- ✓ Vulnerability remediation

RECONNAISSANCE & REPORTING

- ✓ Hidden asset discovery
- ✓ Dark & deep web
- ✓ Automated reporting

ONE-WEEK MISSION

THE PROOF OF VALUE

DEFINED TIMEFRAME

A one-week trial of the ATTILA Box with access to the full feature set.

PREDICTABLE COSTS

For one week based on token credits you have your costs in control.

20,000 TOKENS	1,000 EUR PLUS VAT

SEE FOR YOURSELF

Experience ATTILA's impact and efficiency in your own IT environment.

ABOUT PROTFORCE

MADE & DEVELOPED IN GERMANY — SINCE 2018

DARIUS GHASSEMIEH + TIMON ALTZ

"SECURITY MEANS MORE THAN PROTECTION. IT IS THE ABILITY TO ACT WITH SOVEREIGNTY AND CONFIDENCE IN A DIGITAL WORLD."

At Protforce, we help organisations strengthen their cybersecurity with tailored strategies, penetration testing and robust defences. We identify vulnerabilities, protect critical systems and guide our partners and clients toward greater resilience, building trust through actionable expertise and a partnership of equals.
